Sustainability @ The DEN

Here at the DEN we are constantly striving to make changes for the better. Sustainability and environment are important factors moving forward. Promoting and helping families recycle is just one step we are making towards zero waste. Please check out our recycle stations.

New to the Recycle station is our donation bin for worn, stained and old clothing and soft toys.

Also check out our Hand-me-down hub, where you can donate or take children's items all for free.

OCCASIONAL CHILDCARE

At the DEN, we provide a wonderful, flexible, and affordable childcare service. Families can choose to book casually or on a permanent basis, only paying for the hours you actually use. There are no fees for cancellations or public holidays.

We are open Monday to Friday, from 8:00 AM to 4:30 PM, and are closed on public holidays as well as during the Christmas and New Year period.

We offer three fantastic, fun, and educational rooms: Babies (0-2 years), Toddlers (2-3 years), and Kindy (3-5 years).

The cost of care is \$20.70 per hour before the childcare subsidy is applied. For any inquiries or enrollment details, please feel free to visit our reception!

Babies Room (0-2 Years)

Our babies' room is designed for our precious little ones aged 6 weeks to 2 years. This is a magical time when they discover a whole new world. We explore through touch, taste, sight, and smell. With plenty of hugs for comfort, they grow and learn with every new adventure, and can rest in our cozy sleep room.

Toddlers Room (2-3 Years)

In our engaging Toddlers room, designed for children aged 2 to 3 years, we focus on fostering personal development and individuality. We encourage exploration and learning through play, providing our young learners with valuable experiences. Our dedicated and compassionate staff guide each child's journey towards greater independence.

Kindy Room (3-5 Years)

In this enriching environment, our 3 to 5-year-old children are being thoughtfully prepared to embark on their educational journey. With the guidance of our qualified educator, we explore a variety of learning techniques. Our program includes engaging activities such as mat sessions, the development of self-help skills, emotional literacy, and much more.
